Warndon Parish Council SID report covering June for July 2025 Meeting

TRAFFIC ANALYSIS REPORT FOR WESTCOTEC SID

The Westcotec device has been located opposite Goodrich Avenue for vehicles heading west since 6th June 2024 but has been moved two lampposts towards Stafford Avenue, so drivers are warned sooner as the bend in the road makes drivers see the sign later.

The battery was replaced on 16th June, however it appears the sign is not displaying the correct information to drivers. It's only displaying above 30mph and shows a smiley face. The data recorded is probably correct and alarmingly goes a substantial increase in speeding. The sign has been taken down to be checked before it is used again.

Comparison with Previous Months (Westcotec SID)

TRAFFIC ANALYSIS REPORT

TRAFFIC ANALYSIS REPORT FOR ELAN CITY SID (MILLWOOD DRIVE)

The device is located at Millwood Drive lp 7791 southbound, before Debdale Avenue. It was previously on Millwood Drive in early 2024. The sign at this location encourages drivers to slow down as they head near the Lyppards Centre with its primary school.

The results for June are broadly similar to April/May. Around a fifth of drivers exceed the speed limit in both directions. The sign at its previous location before Turbary Avenue appears to be more effective as the incoming percentage of speeders is around 11% compared to around 20% when the sign is not visible.

Report	Dates Covered	Days	Direction	Veh Counts	Ave Daily Count	85th Percentile Speed mph	% below 30mph	NB. of Speeders	Speeders % of veh counts

TRAFFIC ANALYSIS REPORT

TRAFFIC ANALYSIS REPORT FOR ELAN CITY SID (PLANTATION DRIVE)

At last, our forth sign has been installed on Plantation Drive. Although there has been a sign here regularly, they have always been positioned to remind drivers travelling westwards. The outcoming data suggests there is a problem with drivers travelling eastbound (out of city) so for the first time the sign has been positioned on lp 0645, before Purleigh Avenue to warn drivers travelling in this direction. This location is just before a well-used footpath between the Berkeley's and the Lyppard's, a walking route towards the Lyppard Centre.

Regretfully the proportion of speeders is broadly similar to recent months in both directions. This is probably a reflection on the warmer weather, with drivers going faster. A speed of above 95mph was recorded outgoing.

Report	Dates Covered	Days	Direction	Veh Counts	Ave Daily Count	85th Percentile Speed mph	% below 30mph	NB. of Speeders	Speeders % of veh counts
Plantation Drive lp 0645, eastbound, before Purleigh Avenue
