Bleed Kits Proposal July 6th 2026

- Initial proposal for agreement to release funds pending further enquiries.
- Purchase 2 x bleed kit cabinets £350.00 + vat per cabinet, total £700.00 + vat
- Purchase 2 x bleed kits £60.00 + vat per kit, total £120.00 + vat
- Total cost £820 + vat, plus fixings if not included (minimum spend anticipated, say £50.00)
- Purchase from The Defib Shop, as a comparison Turtle Medical quotes £425.00 + vat for the cabinet and bleed kit.
- Installation could I think be undertaken by the Parish Warden – confirmation he is happy to do this to be sought before we proceed with the purchase.
- Kits to be installed at Lyppard Hub and Tesco Express next to defibrillator units.
- We will need to obtain a property licence from the Hub and Tesco.
- If applicable we will need to obtain Landlord Consent.
- There may be legal costs in relation to the last two items which we will probably be asked to meet. I would hope the City/Hub would waive these costs and possibly Tesco if we agree to a press release highlighting their agreement/involvement.

Agreement sought for appropriation of funds when further enquiries will be made.

Stuart Forrest.
